11 a.m.-3 p.m. Rain or Shine!

Original art by Futurefarmers

- **Collect a sample from 5-10 spots within your area of interest. Mix the soil, remove rocks, and air dry it; do not use a flame to dry the soil! If soil is from a play area, collect from a depth of 1-2 inches. Only about 2 cups of soil is needed per sample. 1-3 sample bags per person please. Drop your samples off by 1 p.m. so you can get your results by 3 p.m.**
